Sheriff Wheeler

Addresses Boys

Sheriff Wheeler's friendly advice and admonitions to the Tombstone youth at the large meeting of the boys at the Opera House last evening is certain to be productive of much good. The encouragement of a "miraculous" trait in a youth cannot help but bear good fruit and the Sheriff's heart to heart appeal to the boys, coupled with a friendly interest in their welfare carried conviction and attention. The movement for a local gymnasium for the boys is receiving much encouragement.

Fair Commission

Meeting Postponed

The meeting of the fair commission to decide on the next secretary to that body and to carry on other business which was scheduled for Tuesday was postponed owing to J. J. Keegan's inability to be present. A telegram from Mr. Keegan, who is at present time on the coast, stated that his wife was so ill he could not leave at present but would be in Phoenix at the end of the present week.

In the meantime prior to the meeting, Governor Hunt will name the new member of the commission who will sit in the seat formerly occupied by H. E. Campbell. The most probable man for the position will be from the northern part of the state though no one has yet been definitely settled on. The next meeting of the commission will be called for Monday, February 16. At that time the man who will fill the chair now "filled" by Secretary Wood will be named and the active campaign for the 1914 will be started by an outlining of the plans and work.

Doings in the

Superior Court

THURSDAY

The case of the state vs J. T. Hughes was on in the superior court today during the greater part of the day. Hughes was charged with assault with a deadly weapon. The whole time was occupied in taking the evidence the jury having been empaneled yesterday afternoon. The jury after being out about ten minutes this afternoon, returned into court with the verdict of guilty as charged.

After the Hughes case was disposed of the case of the State vs Jesus Palomera and Felix Sambrano, charged with assault with a deadly weapon, was called to trial and the jury is being empaneled. It is expected that the jury will be selected in time to take some of the evidence this afternoon and conclude the case early tomorrow morning.

In the Hughes case Attorneys S. K. Williams and J. S. Williams appeared for the defendant, while the State's interests were ably taken care of by County Attorney Gilmore and Assistant Alex. Murry.

WHENEVER YOU USE YOUR BACK

Does a Sharp Pain Hit You?

It's a sign of sick kidneys, especially if the kidney action is disordered, too, passages scanty or too frequent or of color.

Do not neglect any little kidney ill for the slight troubles run into dropsy, gravel, stone or Bright's disease. Use Doan's Kidney Pills. This good remedy cures bad kidneys.

CONVINCING PROOF

T. M. Harley, 315 E. Fifth Ave., Reno, Ga., says: "I had gravel and kidney troubles were the only thing that troubled me. I could hardly endure the pains in my back and the kidney secretions were scanty and irregular in passage. Doctors gave me only temporary relief and finally I decided to use Doan's Kidney Pills. I steadily improved until I was cured and it took only eight boxes of Doan's Kidney Pills to make me well. I haven't suffered since."

From Thursday's Daily

The court attendants in Tombstone beside being impressed with our ideal climate find much to marvel at in the profuse and fragrant blossoms of fruit trees in the garden orchards of the only Tombstone. And what a contrast to the shivering east while Tombstone is suffused with perfume of "blossom time" and incomparable sunshine.

County School Superintendent D. B. Hutcheson returned home yesterday from a brief visit to Douglas and the Sulphur Spring valley.

A large number of witnesses are in the city today from Dubee and Douglas, having arrived on the morning train.

M. E. Hawes, assistant cashier of the First National Bank of this city, was taken suddenly ill with acute indigestion yesterday, and was taken to Bishop and placed in the hospital. His friends hope for an early recovery.

"Bill" Hattich

Visits Tombstone

"Bill" Hattich who for twenty years has directed the destinies of the Prospector was a Tombstone visitor today and it is needless to say is being most cordially greeted by Tombstone friends. "Bill," since deserting the editorial tripod, has been visiting coastal points of interest, indulging in fishing excursions and otherwise enjoying himself from the strenuous grind of successfully conducting a popular metropolitan journal. The lure and charm of Arizona, however, will not fail to hold Bill in its spell and it is safe to assume he will be found within its borders when he again engages in active business endeavor.

Always a consistent Arizona booster, Bill managed to say many flattering things about Arizona and Cochise in particular when interviewed while in California and is much impressed with the frequent and persistent inquiries regarding Arizona and the growing demand for literature regarding the resources and agricultural possibilities open to colonists who are flocking westward seeking homes.

The high prices prevailing for lands in California is directing the attention of homeseekers toward Arizona, which offers every inducement to the energetic and earnest colonist, thus the fertile valleys of Arizona and those of Cochise county in particular promise a mecca for the inceptive farmer and dry farm enthusiast.

Mr. Hattich will remain about a week, but will return again in the near future. A hearty welcome awaits Bill in Tombstone, any time he sees fit to drop in.

Business Man Praises

Dr. Miles' Heart Remedy

Successful Merchant After Investigation Found a Remedy That Restored His Health.

"This is Thanksgiving day in the state of Pennsylvania, and I want to devote a part of it in writing a letter to you. On the 26th day of November, 1913, I was stricken with heart trouble. My family physician called it Angina Pectoris. I had from one to five attacks in 24 hours, in the latter part of December, 1913. I wrote to the Miles Medical Co. for information concerning my case, and in reply I received a very kind and instructive letter, which I handed to my family doctor, and he told me to use your Remedies in connection with the medicine he gave me, so I did. I used five bottles of Dr. Miles' Heart Remedy and seven bottles of Dr. Miles' Nervine. I was confined to the house for about four months. The action of my heart is now, and has been normal for the last six months. I can truly recommend Dr. Miles' Nervine and Heart Remedy to do what they are intended for, if used according to directions. I thank you kindly for your advice in answer to my monthly reports. I am now sixty-seven years of age, have been in the mercantile business for thirty-five years and lived retired for the last thirteen years."

BREEDING STOCK FOR SALE

May Abolish Li-

cense for Chauffeurs

A Phoenix dispatch says:—

A general cut in the cost of his office, the abolition of the chauffeur's license and the lowering of the cost of registering motor vehicles are recommended by Secretary of State Sidney P. Osborn, in his annual report.

In regard to the motor vehicle, registration law, Osborn goes so far as to declare that it is unconstitutional. He states:

"In theory the license fee is charged in order to raise sufficient money to pay for the regulation of the automobile traffic. The automobile traffic must be regulated, but under the present law more money is raised than is needed for the purpose; therefore it becomes a revenue law, and as soon as it does become such it is manifestly unconstitutional, being double taxation."

Also, if it is not a revenue law, there is justification for basing the license fee on horsepower, as it costs no more money or greater effort to regulate a ninety-horse-power car than one having but twenty horsepower."

Under the present law the secretary of state is required to issue a chauffeur's license to any person who applies for it. On this subject he reports:

"... recommend that the chauffeur's license either be abolished or an examination, both technical and practical be provided for by law. Under the present law the chauffeur's license is a farce; also, it is nothing more nor less than a revenue law. The chauffeurs get nothing for their money and the public in general is in no way protected from incompetent, inefficient or careless driving."

Osborn's report shows that he has issued 3,583 licenses for motor vehicles and 703 licenses for chauffeurs between September 1, 1912, the date the law went into effect, and December 31, 1913. The total revenue from the law was \$20,933.

The declaration made by Osborn in his last annual report that the fees of his office are entirely too high is reiterated. "To my mind, fees for public service should not be fixed for profit but should be set at a figure that will cover the actual expenses and nothing more," he states.

His total receipts for 1913 were \$13,842.57, and his expenditures were only \$12,071.06, including salaries. This also included the cost of motor vehicle number plates and seals for 1914.

Osborn recommends that the labor law, initiative and referendum code, recall code, dental laws, motor vehicle laws and mining statutes be printed in pamphlet form for general distribution, as there is a great demand for them. On the subject of the revised statutes he says:

"The revised statutes, 1913, will be disposed of through the office of the secretary of state at a price that will cover their actual cost of printing. I feel that this method is a decided improvement over the one used in printing and distributing the 1901 code. By this plan the state will not be out one dollar for the printing of the statutes, and the people of Arizona purchasing them will save from two to four dollars a volume each, making a saving in the aggregate of between \$14,000 and \$30,000."

To Choose Site for

Artesian Well

The site upon which the \$7,500 appropriation of the legislature for sinking an artesian well will be expended, will be chosen on Feb. 16, at a meeting of the board of supervisors and Professor R. H. Forbes, director of the experimental station. This announcement was made yesterday by Supervisors Rock and Higgs.

Prof. Forbes and the supervisors will probably make a trip over the valley by automobile before definitely announcing the site. Until the meeting is held, nothing of definite nature can be stated concerning the probable location. Several feasible ones have been mentioned, however.

It has been persistently rumored that G. I. Van Meter, of Glendale, had found a good location for the well in the vicinity of Elfrida and would put in a bid on the work, guaranteeing to sink 2,000 feet for the sum mentioned, should it be necessary to attain such depth.

The legislative enactment provides that the well must be located on an unoccupied school section. There are somewhat scarce in the valley.
